<ul style="list-style-type: none"> <li>- Sub-Fund assets may be invested in Emerging Markets</li> <li>- Max. 30% of Sub-Fund assets may be invested in the China A-Shares market</li> <li>- The long/short equity strategy (the "Strategy") targets to be market neutral with limited or no net exposure to broad Equity market movements. The net market exposure of the Strategy (Long Positions minus Short Positions) is expected to be in a maximum range of +10 % and -10 % of the Sub-Fund's Net Asset Value. To the extent that the net market exposure differs from 0 the Strategy is not a pure market neutral long/short Equity strategy for, insofar, the Strategy does not seek to reduce common Equity market or systematic risks but accepts them. The Investment Manager exchanges a regular variable payment from the Sub-Fund against a participation in the performance of the Strategy, in line with the above description. This performance may also be negative, which would then result in an additional payment from the Sub-Fund to the respective counterparty of the derivative structure. Usually, the overall derivatives structure will be implemented with one counterparty. Such counterparty has to comply with the general requirements of the Investment Manager for counterparty selection. In addition, the counterparty will be selected by applying the best execution criteria of the Investment Manager. Given the complexity of the overall derivatives structures the counterparty's ability to handle such complex structures will be of significant importance within this process. Through regular and ad hoc resets of the Total Return Swap it will be ensured that the maximum counterparty risk of the selected counterparty will not exceed 10% of the Sub-Fund's volume. The counterparty assumes no discretion over the composition or management of the strategy. The Investment Manager does not require the approval to implement any transaction within the management of the Strategy.</li> <li>- The use of total return swaps shall usually not exceed 2% of Sub-Fund assets</li> <li>- Taiwan Restriction applies</li> <li>- GITA Restriction (Alternative 1) applies, however at least 70% of Sub-Fund assets are invested in Equity Participation according to Art. 2 Sec. 8 GITA</li> <li>- Benchmark Index: MSCI ALL COUNTRIES ASIA EX JAPAN TOTAL RETURN (NET).
