

NOTICE TO UNITHOLDERS

We hereby inform you that the criteria for the “Towards Sustainability” label have changed. The main changes are as follows:

- The application of a “best-in-class” or “best-in-universe” strategy must lead to a reduction in the investable universe of at least 25% (instead of the current 20%)
- Performance at portfolio level in terms of greenhouse gas (GHG) intensity, with a requirement to have a Scope 1 and Scope 2 GHG intensity level at least better than the GHG intensity level set and updated annually by the CLA (Central Labelling Agency) for the European Region
- Acknowledging controversies involving, in particular, the strengthening of exclusions

The new criteria applicable to this label will be updated in the prospectus as well as in the pre-contractual disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a of Regulation (EU) 2019/2088 (pre-contractual annex), the European Taxonomy Regulation (EU) 2019/2088, and Article 6, paragraph 1 of European Regulation (EU) 2020/852 effective from 2 February 2024:
