Subject in particular to the provisions of letter h), the acquisition of Interest-bearing Securities, which at the time of acquisition are High-Yield Investments, is restricted to a maximum of 20 % of Sub-Fund assets. The Sub-Fund may only invest in High Yield Investments that at the time of acquisition carry a rating between BB+ and B- (Standard & Poor's and Fitch) or Ba1 and B3 (Moody's) or an equivalent rating by other recognized rating agencies or are not rated at all, but which, in the opinion of the Investment Manager, would carry a rating between BB+ and B-, or Ba1 and B3 if they were to be rated. The best available rating at acquisition day is decisive for the assessment of the possible acquisition of assets according to sentence 1 of letter a). If such an asset loses the minimum rating set out in the third sentence of this letter it must be sold within six months.

Included in this limit, warrants for Equities from companies as defined in the first sentence of this letter and index certificates, certificates on adequately diversified Equity baskets based on at least ten Equities of appropriate companies and other certificates (e.g. certificates on individual Equities) that are securities according to Appendix 1 No. 1 a) and No. 2 first indent provided their risk profile typically correlates with the assets listed in the first sentence of this letter or with the investment markets to which these assets can be allocated, may also be acquired. b) Subject in particular to the provisions of letter g), up to one third of Sub-Fund assets may be invested in Equities, or warrants other than those listed in letter a). At the beginning of each calendar year, the Investment Manager has the option of analysing the relative performance of the BRIC countries in the previous calendar year, in order to aim at an approximate balance of the BRIC countries in the Sub-Fund, with effect from the start of the respective calendar year. This investment strategy has the objective of utilising statistical findings on the relative development of different national economies with regard to each other ("mean reversion effect"). This may result in increased restructuring within the Sub-Fund at the start of the calendar year. The quotas of the individual BRIC countries, as would be obtained from the statistical findings, may be exceeded or not reached (depending on the market situation).</p> <p>g) Within the remit of the Exposure Approach, it is permissible that the limits described in letters a) and b) above are not adhered to.</p> <p>h) The limits listed in letters a) and d) are not required to be adhered to in the last two months before liquidation or merger of the Sub-Fund.</p> <p>i) Due to the Sub-Fund being marketed in Taiwan and Hong Kong, the Additional Investment Restrictions as described under No. 16) and No. 17) of the Introduction apply.</p>	<p>letter c), may total a maximum of 15 % of Sub-Fund assets.
